

**Hello esteemed fellow earth warriors,**

Attached is the document you requested on the dangers of fixed wireless (i.e. towers).  
Note this is not the same as fiber optic cable (FTTH or FTTN) NBN.

If you live in the Nimbin-Barkersvale or Uki area now is the time to get your blood tested as all the bloodwork tests are about to be all sent in to NBN Co to let them know that we will be checking to see the change in our blood and holding them responsible. The instructions were passed around at the NRG meeting on Sunday. This is your last chance!

**May the Force be with us!**

## Fixed Wireless Discussion & Discoveries, 2014.

Our local council and the Australian government can not give the community a written guarantee that Fixed Wireless frequencies of 2.3 gigahertz is safe to our health.

Fiber optics is clean, safe to health, but expensive and our government does not care about the people of rural Australia. Why are the Tweed, Byron, Lismore & Gold Coast shires NOT getting fiber optics or upgraded current copper cable phone lines for ADSL? Discrimination - we are being chosen for extinction. We are the lab rats here. The Tweed & Byron shire is where most of the consciously aware, free-thinking and outspoken people of Australia live - the Sacred Land of the Rainbow Serpent.

UHF Ultra High Frequencies of NBN = 2.3 gigahertz - Radio Frequency Microwaves = Fixed & Mobile Wireless will literally boil our air waves / atmosphere and our cells' membrane - like a frog in a pot water, cooking slowly.

**NB. Professor Barrie Trower** (ex British Military in Microwave Weaponry Specialist 1950's - 90's and MI5 Agent) stated RF has become a generic term (Radio Frequency) to avoid using the term "Microwave". It poses less 'safety queries' as the word "radio" itself, which used to refer to "long wave radio" was domestically non threatening.

Professor Goldsmith writes; "... effects from exposure to RF radiation in certain populations: reproductive effects .... increased spontaneous abortion..... increased incidence of childhood and other cancers."

**Eldron Byrd**, a scientist for *The Naval Surface Weapon Centre of the US Navy*, in one of his 1986 lectures on the effects of low-level microwaves, is referenced as stating; **"...we can alter the behaviour of cells and tissue....cause up to six times higher foetus mortality and birth defects....."** *The Mobile Telecommunications Industry* carried out very thorough and exhaustive scientific studies on its own product. This industry's conclusion was: Sec 7 " ...it can be concluded that electro-magnetic fields with frequencies in the mobile telecommunications range do play a role in the development of cancer....direct damage on DNA as well as DNA synthesis and DNA repair mechanisms."

The *Russian National Committee on Non-ionizing Radiation Protection* in their research document 'Health Effects on Children and Teenagers' found:-

**85% Increase in central nervous system disorders**

**36% Increase in epilepsy**

**11% increase in mental retardation**

**82% increase in blood immune disorders and risk to foetus.**

**NB.** Prof Barrie Trower: "The reader may think that the cell phone irradiation is different from WiFi /Wireless as it has more power. In fact **WiFi can be more harmful** because of its lower power! Low power can enter the body and cause harm. **All electromagnetic waves are accumulative.** If they are below the body's threshold to cause activation of the necessary proteins required to defend and repair tissues, the damage accumulates very slowly and is indictable like a cancer. Think of sunbathing on a cloudy day, you can still burn your skin. References: All the above information comes from *Barrie Trower WiFi*

**NBN Fixed & Mobile Wireless = Radio Frequency Microwaves** affect our nervous systems, brains, endocrine systems (hormones) effectively destroying the functioning of our pineal gland which is responsible for humans' ability to be creative, inventive & transcendental in thought and being. The pineal gland is essential for the production of melatonin which is a major player in our circadian rhythms that gives us sleep. Prolonged insomnia produces insanity and nervous system meltdown. Melatonin is one of our body's greatest antioxidants and is a natural preventative of cancer. The blood and tissue of children, adults, animals, bees, butterflies, bats, birds and our water - the whole community will suffer.

Symptoms of exposure to Radio Frequency Radiation (radiowave sickness) from 'The Health Effects of Electrical Pollution' by *The National Foundation for Alternative Medicine, Washington DC*:-

**Neurological:**

Headaches, irritability, tremors, muscle spasms, altered reflexes, depression, anxiety, weakness, memory loss, muscle and joint pain, dizziness, insomnia, numbness, tingling leg/foot, pain, nausea, fatigue, difficulty concentrating, flu like symptoms, fever. **More severe reactions include: seizures, paralysis, psychosis and stroke.**

**Cardiac:** Palpitations, arrhythmias, pain in chest, low or high blood pressure, slow or fast heart rate, shortness of breath.

**Respiratory:** Sinusitis, bronchitis, pneumonia, asthma.

**Dermatological:** Skin rash, itching, burning, facial flushing.

**Ophthalmological:** Pain or burning of eyes, deteriorating vision, pressure in/ behind eyes, floaters, cataracts

**Others Symptoms:** Digestive problems, abdominal pain, enlarged thyroid, testicular and ovarian pain, dryness of lips, mouth, tongue and eyes, great thirst, dehydration, nosebleeds, internal bleeding, altered sugar metabolism, immune abnormalities, redistribution of metals within the body, hair loss, pain in teeth, deteriorating fillings in teeth, impaired sense of smell, tinnitus/ringing in the ears.

[www.MagdaHavas.com](http://www.MagdaHavas.com)

Watch Youtube: 'Resonance: Beings of Frequency.' Magda Havas 'WiFi in Schools Is Safe, True or False?' and 'Cell Towers.' We have been paying a carbon tax for 'global warming' and our government with NBN Fixed/Mobile Wireless is going to heat up our local atmosphere further. Aren't all the H.A.A.R.P facilities in Australia and around the world doing that enough?!!!

GEO-ENGINEERING /Chemtrails /Weather Wars/Depopulation/ Agenda 21 [www.StoptheCrime.net](http://www.StoptheCrime.net) & [www.Aircrap.org](http://www.Aircrap.org). **Where are the Environmental Assessments that look at the cumulative impacts on human health, crop pollinators (bees, butterflies, bats, birds) invertebrates and all life?** Sick people, no bees, no crops and crippled local economy, no tourism, no NEED for a council because no community. The ONLY people making money will be the pharmaceutical companies, doctors, nursing and respite homes, mental health facilities, funeral homes and developers who will get farms and homes cheaply; another land grab tactic opening the gates for oil, gas & water companies & wealthy foreign investors/plunderers to move into the Caldera and its surrounds. This stands in the face of global genocide from Fukushima

radiation; NO bees, NO food and NO reports on radiation fallout making world governments complicit in their disregard for human and environmental health and safety.

**Youtube: Lauren Moret 'Nuked in the Skies' and 'USA, UK Monarchy behind Fukushima Radiation Genocide.'** Food contamination of the crops of the northern hemisphere finds Australia, New Zealand & South America to be the new relatively clean foodbowl for the rest of the world. Tweed and Byron Shire are the 'organic (farming methods) food bowls' of NSW and other parts of Australia. Productivity on all levels will decrease with Fixed Wireless Ultra High Frequency towers.

**It is offered by the Government we do NOT have to accept NBN Fixed Wireless. Demand Fiber Optics & upgraded phone lines/cable ADSL.**

The people who take up contracts with NBN Co (or any other company) to be paid to have the towers in their back yards/property WILL be vulnerable to multiple lawsuits for loss of health, loss of property value and loss of income for allowing these Towers of Death in our community along with the councillors - then see how well they sleep. The councillors and their families will also be under the umbrella of UHF Death Wave Towers. Farmers WILL take legal action against each of the councillors, relevant officials in state & federal governments who allow the Fixed Wireless Towers in our communities when the bees disappear, food production declines and livestock die from cancers & other Immune deficient diseases. I recommend that as many people as possible **get a current BLOOD Test NOW** prior to the implementation of NBN Fixed/Mobile Wireless Radio Frequency Microwaves in each community in preparation for class action suits against all those involved in NBN towers. The literature put out by NBN Co is misleading and incorrect trying to confuse and lie their way into communities. On the diagram that NBN Co put out in their information propaganda booklet it shows radiation in dot-dashes going directly to the homes that have NBN antennae on them, but in TRUTH all energy radiates in a circular pattern, which means whether or not you choose to have Fixed Wireless to your family home, EVERYONE'S homes and all our environment will be receiving **UHF 2.3 gigahertz frequency wireless radiation 24/7 all year. Save your health & that of your children and grandchildren yet to come.**

On another information sheet entitled '*Radio Communications in the Community*' issue date July 2008; '*Wireless Technology & Health*' (subliminal advertising and a contradiction of terms as wireless is in NO WAY related to health) part of the NBN Co explanation on safety was in measurements of Systems eg TV and Broadcast - typical transmitter power in watts but it is the frequency measured in hertz, not power of watts, that is important to look at when gauging effects on Health and Safety .

### **Fixed Wireless NBN - Not worth the Health Risks**

I spent much time phoning experts to help me understand the figures given on the brochure and finally the supervisor for NBN Co told me that the frequency at which Fixed Wireless works is 2.3 gigahertz which equates to a GREAT health risk to the community especially to the unborn, babies & children whose cells are replicating at a fast rate and whose bones and skulls are immature and thin offering very little protection to their brains. Most of Europe has banned Wireless - Wi Fi in Schools & common public areas where children will be exposed to these TOXIC frequencies put out by **Fixed Wireless/ Radio Frequency Microwaves.**

The people of Tweed & Byron Shire are not stupid - they know the government does NOT have the people's best interests at heart and they will be OUTRAGED if our council is found to be selling out our environment and the health of the people for money. I call for a moratorium on any further installations for Fixed or Mobile Wireless NBN in the Tweed and Byron Shire until the community is educated on the FACTS of EMF, UHF and ELF RF Microwave frequencies' negative health affect on the environment and people. We do NOT want to be the test case for Fixed Wireless. We the community value the health of our children, our children's, children, the community and environment at large. Any property owner allowing NBN Fixed/Mobile Wireless and Cell Towers on their property should be slapped with a class action lawsuit by the local community and charged with treason. The councillors responsible for allowing the planning, development, purchase and erection of such towers in our communities should also be charged with treason and imprisoned for conspiring with corporations and making decisions that DO KNOWINGLY cause HARM to humans, fauna and flora i.e. all life.

There are thousands of articles, reports and educational documentaries available on the internet. I have personally done research and written articles and in February 2013 gave a presentation on the negative health effects of Cell phone Towers & NBN Radio Frequency Microwave Radiation, accompanied with DVDs to ALL the Tweed Shire councillors. The Tweed Shire councillors of (2013-14) and The Corporation of Australia (who fraudulently call themselves 'The Australian Government') continue the implementation of Wireless NBN KNOWING the harm to health. Tweed Shire councillors, NBN Co & the government claim ignorance and deny any wrong doing in the multiple levels of **treason & deceit against we, the living blood and flesh human beings with natural birth rights of universal law - DO NO HARM.** The actions of our councillors, NBN Co and the Corporation of Australia (government) show ONLY wilful ignorance. May ALL their names be recorded in history as betrayers of humanity and Nature. Wilful ignorance is NOT innocence. Those people who have been elected by the people, to serve the people, in trust that the individuals, WILL act in accordance with what is in the BEST interest of the the people/community/nations. This is NOT happening because there IS an evil Agenda 21 Depopulation that is being played out in this present world reality. All is recorded and a day of reckoning will befall those, their direct families and staff, for not taking their elected positions of **Duty of Care** seriously and for acting in a reckless & derelict manner by allowing **harm** to our communities and natural environment. We are meant to be '**the caretakers**' of this planet. Our politicians are NOT looking after the people or nature. Disgraceful! Our government, ANZ Bank & shareholders have lent \$2.9 Billion to those who want to DESTROY OUR world heritage marine park, the Great Barrier Reef, to plunder and pillage our land and poison our water, air, soil and all life for a few dollars - what Judases. The world's largest coal, gas and (Queen Elizabeth's Uranium!!) port at Abbot Point QLD?! A huge tanker arriving and loading every 50 minutes, every day all year, KILLING the Great Barrier Reef. People of Australia should withdraw all their ANZ Bank accounts in PROTEST of such unethical investment and collapse the fraudulent banking system.

Masaru Emoto via water crystal studies, proved that Cell phone & Wireless Radio Frequencies mutate water molecules and human beings are approximately 70% water; so

too is most life on this planet. **Reference:** [Youtube.com/watch?v=PDW9Lqj8hmc](https://www.youtube.com/watch?v=PDW9Lqj8hmc) - Dr Masaru Emoto Hado Water Crystals; Full Documentary.

**Today in the world we see a serious decline of the number of species** - 109 species of Arctic migratory birds have declined. Five species of butterflies have become extinct in Britain with half of all known British butterflies under threat of extinction. 36 Species of Australian shore birds have decreased by 75% (under a government that supposedly supports the environment)!!! 10% of the world's butterflies face extinction. 45% of all Europe's common birds have declined in numbers. 50% decline in all European grassland butterflies. Worldwide bee numbers have dropped by up to 70%. 62% of Asian migratory water birds are declining or extinct. 80% of all Australian wading birds have declined in numbers. Half of Britain's bee species have declined by up to 70%. 4 species of American bees have decreased by up to 98%. Farmland birds falling by as much as 79%. All this information can be seen on Youtube 'Resonance, Beings of Frequency.'

**PEOPLE just SAY NO to NBN WIRELESS in our Community & Schools.**
