

Hi there,

Our community radio stations are at serious risk of being forced off air. Will you help protect them? Go to <http://committocommunityradio.org.au/hockey> today to help.

The Commission of Audit has recommended that funding to our community radio stations be cut. If the Federal Government adopts that recommendation in the upcoming budget, it would mean stations right across the country could be forced off air.

I don't think we can afford to let that happen, which is why I've just emailed the Treasurer, Joe Hockey, and called on him to protect our community radio stations. It was really easy to do - all the words and information are there, you just need to add your details and hit send.

Will you join me by sending an email too? Go to <http://committocommunityradio.org.au/hockey> to send your message

We can't afford to lose any of the stations who provide the local content that public and commercial stations can't or won't cater for.

Thanks for joining me. <http://committocommunityradio.org.au/hockey>

Thanks,
