

Forest Protection: You Can Help!

Friends, here's important news from the North East Forest Alliance (NEFA) regarding legal action they are taking against the NSW government regarding Regional Forest Agreements (RFAs). Signed over 20 years ago, RFAs have allowed massive destruction of NSW forests. This has to stop! NEFA hopes to enlist support and donations for the legal effort and have sent NRG this message to share:

NEFArians ... you will have hopefully seen or heard that with the assistance of EDO we have launched legal action against the NE RFA. Hopefully like the Chaelundi case 30 years ago it will be a ground breaker. Here are important links to get more information and donate:

For the chuffed.org fundraising site: <https://chuffed.org/>

For information from the EDO: <https://www.edo.org.au/>

For information at the ABC: <https://www.abc.net.au/>

Please pass this information along to others who are equally concerned about our forests.

~
