Request for help please

Message:

Hi

On 8th Sept, Tweed Valley Weekly ran a story on page 5 about the Pottsville Men's Shed having an opportunity to relocate to a central Pottsville site instead of building in the heart of a koala breeding area (Black Rocks). We need support to influence councillors to support the central site please. Could as many of your members as you can influence PLEASE write to editor@theweekly.net.au supporting the retraction of the DA for the Men's Shed at Black Rocks and issuing of a DA for the Shed at Lot 3 Centennial Drive (opposite the Sports Club)? Letters to Councillors along the same line would also help. We need to demonstrate a flood of public opinion favouring getting the Shed away from the highly unsuitable Black Rocks site, for the sake of both the Men and the koalas.

Thank you for any help you can offer.
