

# CONCERT FOR KOALAS at Pottsville Beach

A plea for help from our endangered koalas. Come to a family-friendly event & show Council that our community cares.

See YouTube video of LUCIA's release  
at the Black Rocks sports field after  
treatment for stress-related disease  
<http://www.tinyurl.com/LuciaRelease>

Be entertained by local musicians:

Melinda Menzies

Michael Manley

Sophia Fletcher

Hear from local koala advocates:

- NSW Greens koala spokesperson, Dawn Walker MLC
- Mayor and koala conservationist, Katie Milne
- Wildlife consultant and radio broadcaster, Gary Opit
- Northern Rivers Guardians President, Scott Sledge

**WHERE:** Ambrose Brown Park at the mouth of Mooball Creek

**WHEN:** Saturday, 11 March from 10am-1pm

20m from the Black Rocks koala breeding area (where koalas are dying from stress-related disease) is the wrong place for an industrial-like men's shed. A report on other available sites is under way & 2 new potential sites have been found. Barry Sheppard sports field is an option. So why place more stress & disturbance on a dying koala population?

**LET'S CALL FOR A WIN-WIN SOLUTION FOR MEN SHEDDERS, THE COMMUNITY AND KOALAS**

*'Extinction is forever and pulling back decline is not an easy task. I am pleading with you to give the Black Rocks koala cell time to recover. Please lend them a hand. Their survival depends on you and you alone.'* [Dr Steve Phillips, 7/3/2015]

## SHOW YOU CARE – BE THERE!
