

Could this be the end of the Adani scam ? I think we must keep up the pressure, but it is definitely looking like a win for the environment! Dare I say it...Woohoo!

### **The Queensland Government will not hand the \$1 billion NAIF loan to Adani.**

In stunning breaking news, Premier Palaszczuk just announced the Queensland Government will refuse to give the money to Adani.

For the loan to go ahead, it has to go via the Queensland Government. Now that Queensland Labor have refused to act as go-between on this dirty deal, Turnbull's craven billion-dollar payoff to Adani has been left stranded.

It's a massive body blow to Adani, who are now desperately trying to extort handouts from governments as the financial sector abandons them.

**This is a spectacular turnaround from the Queensland Government, and they did it because of you, scott.**

They did it because you made 54,589 calls into 11 electorates.

They did it because you convinced 1,532 members of the public to contact their MPs.

They did it because you went to 520 calling sessions.

They did it because the 160 local #StopAdani groups have taken 320 actions across the country in the last three months. That's one every six hours.

They did it because you gave your time, your voice, your donations — and together, we are a phenomenal force.

Today's Guardian called the Stop Adani movement: *"the biggest environmental campaign in Australia since the 1980s."*

But things are still so far from over. We know Senator Canavan and his cronies will desperately try to find a way to dish out a billion dollars to Adani. To find every single dirty trick, handout or leg-up they can to give to their best friends. They will continue to throw a tantrum until they get their way.

That's why we will stay vigilant. But for today, let's enjoy our win.

**This is a massive victory and it wouldn't have happened without you.**

There's no action to take here today. No person to call or ad to fund. This is just an email to celebrate with you and to let you know you have helped achieve something remarkable.

You should all be incredibly proud.

Sam R, Paul, Ellen, Miriam, Alycia, Adam, Anisha, and the entire the GetUp team
