

Dear NR Guardians

You still have time to have your say re the Rail Trail or Rail Service.

We need to keep the corridor for trains of the future, not lose the protection of the law which would result from taking out the tracks. At the moment it seems the majority agrees with many more wanting Rail Service over the Rail Trail.

If you have Facebook, you can click the link below, if not there are a couple of suggested emails below.

The ABC poll is still open

Hi all,

Just spoke to Mehreen Faruqi's staff (she has a great MR in the echonet today). They said it's important to write to the Fishers, Shooters and Farmers Party MLCs as their vote helped stop the legislation being passed last time. As you can see by the name change they are trying to recruit farmers, and farmers are not fussed about rail trails through their properties. People could mention that there are problems up here with van packers and backpackers camping in national parks and bushland and leaving an awful mess behind. This behaviour could spread to farms and effect safety and the livelihoods of hard working farmers if the trail goes through peoples' properties.
